Gecko

Measuring just 36mm diameter and 4.9mm thick, elegant glass and aluminum based design that stands apart with amazing application on iPhone 4s and iPhones. Simply tag or stick it on anything. This Bluetooth smart device powered by TI BLE solution runs on replaceable coin cell battery. The LED and buzzer provide good optimum alerts even in noisy environment.

The screenshot shows the Gecko app interface. On the left, there are buttons for 'Car Key' and 'Add Tag'. Below these is a 'Pause Tracking' section with a list of items: Car Keys (ON), House Keys (OFF), Wallet (ON), and Laptop (ON). The main part of the screen is an 'Activity Tracker' grid. The grid has columns for 'Monday' and 'Tuesday' and rows for time slots: 7:00, 8:00, 9:00, 10:00, 11:00, and Noon. Each time slot contains a small illustration of a person performing an activity: a person sleeping at 7:00, a person sitting at a desk at 8:00, a person sitting on a bench at 9:00, a person sitting on a bench at 10:00, and a person running at 11:00.

	Monday	Tuesday
7:00		
8:00		
9:00		
10:00		
11:00

The screenshot shows the 'Edit Tag Profile' screen. It has a title bar with 'Edit Tag Profile' and a 'Cancel' button. Below the title bar, there is a text input field containing 'Car key' and a 'Choose a pic' button. Underneath is a 'Set distance detection' section with a slider ranging from 'off' to 'far'. The slider is currently set to 'near'. Below the slider is a note: 'Pic. can be upto 50 meters unobstructed range set distance to far for maximum battery life'. The 'Set action' section has three options: 'ALARM on Phone' (with a music note icon), 'VIBRATE Phone' (with a vibration icon), and 'BEEP Tag' (with a speaker icon).
